

PatchMaster Mono and PatchMaster Multi offer the solution for the removal of the outer surface of PE pipe, in preparation for electrofusion welding of a top-tee or branch saddle fitting.

PatchMaster Mono offers dedicated one-size applications, with a low profile & lightweight tool, capable of use in tight spaces.

PatchMaster Multi offers a variable tool, suitable for a range of different sizes of PE pipe. Designed to be user friendly and ergonomic.

All units have long-life blades.
