

# EXTERNAL DEBEADERS

63MM - 1200MM

Ultimate Solutions.  
Intelligent Delivery.

## COMMENTS

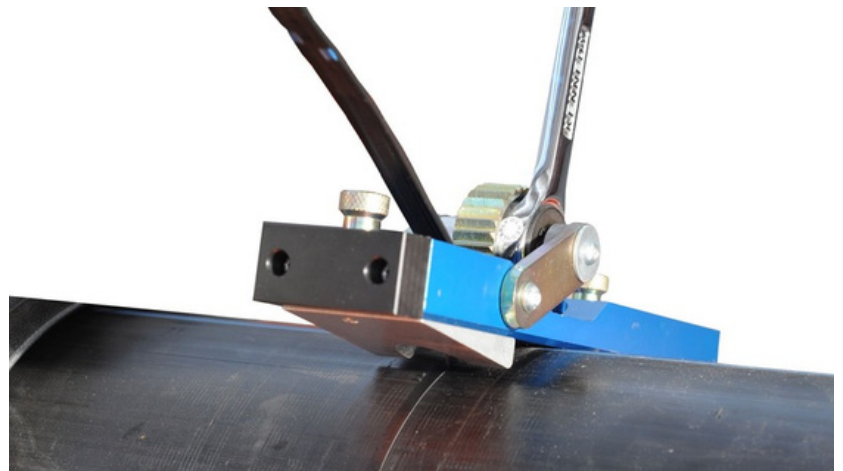

External Debeaders are intuitive, easy to use, accurate, versatile and cover a range from Ø 63 to 1200mm.

These debeaders are designed to remove the external bead from a complete butt fusion welded joint. The tool knocks onto the pipe bead, then the alignment blocks slide against the pipe surface to guide it around the pipe. The blade cuts the under the bead and the handle helps to pull the tool around the pipe, cutting the bead away. Normally performed when bead is slightly warm but can be used on cold beads as well.

Also works on flat surfaces too and removes the bead from plastic sheets without the need for pipe guides.

## TECHNICAL FEATURES

CODE	WORKING RANGE
9985-99840011	Ø 63 - 125 mm
9985-99840010	Ø 90 - 400 mm
9985-99840012	Ø 400 - 1200 mm (max bead width is 60 mm)
Material	HDPE - PP
