ADJUSTABLE HEIGHT PIPE ROLLERS

COMMENTS

Adjustable pipe rollers allow for variations in ground heights or welder set-ups.

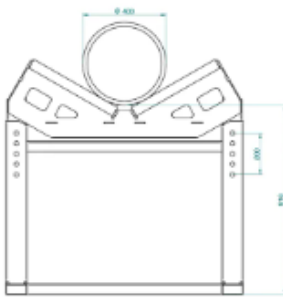

A simple design utilising sliding box section and pins to set the stand height. These rollers will accommodate pipe from 180mm up to 1000mm. Each roller has 200mm of vertical height adjustment from the minimum height.

UAPR-1000G-400 – Adjustable Height Roller to suit pipe 180-1000mm (400mm min height)

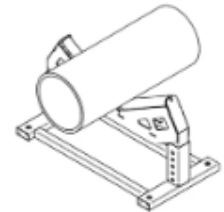

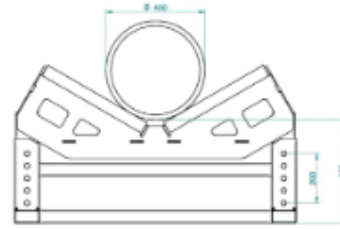

UAPR-1000G-650 – Adjustable Height Roller to suit pipe 180-1000mm (650mm min height)

UAPR-1000G-900 – Adjustable Height Roller to suit pipe 180-1000mm (900mm min height)

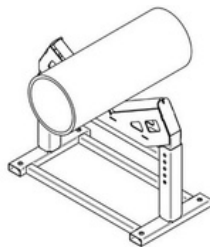

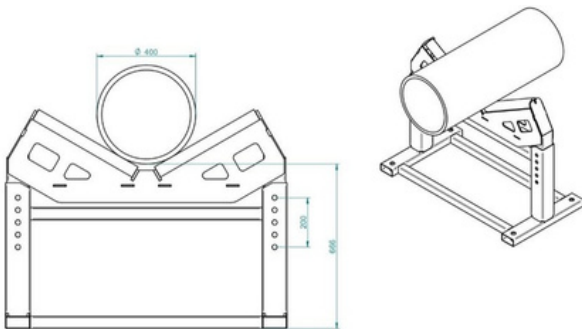

Other variations available on request.
