

PREPMASTER ROTARY SCRAPER

100-500MM

Ultimate Solutions.
Intelligent Delivery.

COMMENTS

The Prepmaster rotary scraping tool is for all SDR rated pipe between 100-500mm. The tool features a 4 edge tungsten scraping tip and lightweight die-cast aluminium body construction.

It's easy to use, with a spring loaded scraping tip to accommodate irregular shaped pipe, and has excellent performance characteristics. Comes with a heavy duty carry case to keep your tool corrected. Made in the UK from quality materials, this is a tool that will work for you on site for many years to come.

UPG also stock most spare parts in NZ for these tools and can service your tool if needed in the future.
