Intelligent Delivery.

## COMMENTS

The Ritmo TURBO scrapers are a compact and easy to use scraper that are available in all sizes from 20mm-180mm. They can be used to scrape the ends of pipes and also long spigot fittings including stub flanges. Ideal for use in situations where there are space constraints or a large number of EF welds are required, dramatically reducing the preparation time compared to a hand operated rotary scraper or hand scraper.

Used with any variable speed drill, the spring loaded blade removes the oxidised layer of the pipe in a consistent ribbon. The 20-63mm TURBO scrapers also feature a facing blade which allows the user to square the pipe face in the case of an uneven cut. This is done by removing the internal cone.

The TURBO scrapers from 20mm to 63mm are made of aluminium and the 75mm to 180mm are polypropylene to keep weight to a minimum.

Supplied in a durable fabric carry bag or you can purchase a carry case separately. Spare blades and parts held in stock.

Also available in 3/4" up to 4" Imperial for Gas Pipe.

## TECHNICAL FEATURES

### Size Range: 20-63mm:

- Aluminium Body
- Peeling & Facing Capability

### Size Range: 75-180 mm:

- Polypropylene Body - Lightweight
- Peeling Capability Only

## TECHNICAL FEATURES

### Size Range: 20-63mm:

ITEM	CODE	WORKING RANGE	PIPE THICKNESS MIN ÷ MAX	SCRAPING LENGTH MAX	WEIGHT
TURBO 20	9970-0020T	20mm	2.3 ÷ 3.8 mm	45mm	0.4 Kg
TURBO 25	9970-0025T	25mm	2.3 ÷ 5.3 mm	45mm	0.5 Kg
TURBO 32	9970-0032T	32mm	2.3 ÷ 6.8 mm	45mm	0.6 Kg
TURBO 40	9970-0040T	40mm	2.3 ÷ 8.3 mm	55mm	0.8 Kg
TURBO 50	9970-0050T	50mm	2.3 ÷ 10.3 mm	55mm	1 Kg
TURBO 63	9970-0063T	63mm	2.3 ÷ 13.3 mm	55mm	1.3 Kg

### Size Range: 75-180 mm

ITEM	CODE	WORKING RANGE	PIPE THICKNESS MIN	SCRAPING LENGTH MAX	WEIGHT
TURBO 75	9970-0075T	75mm	4.5mm	90mm	0.9 Kg
TURBO 90	9970-0090T	90mm	5.4mm	99mm	1 Kg
TURBO 110	9970-0110T	110mm	6.6mm	100mm	1.2 Kg
TURBO 125	9970-0125T	125mm	7.4mm	100mm	1.3 Kg
TURBO 160	9970-0160T	160mm	9.4mm	125mm	1.7 Kg
TURBO 180	9970-0180T	180mm	10.6mm	125mm	1.9 Kg
